

## **Appendix F: Quarterly CEMS Reports**

Copies of the reports listed below are attached and include a calculation of the total amount of time per calendar quarter that the CEMS is not in continuous operation (“downtime”), expressed as a percentage of the operating time of the process unit(s) being monitored, and a listing of the times and dates for the periods when the CEMS was not in continuous operation, with an explanation of the cause(s) of the downtime and an explanation and a description of any corrective action(s) taken.

**Table F.1: Copies of Quarterly CEMS Reports**

Report Name	Report Period	Date Submitted
3Q2021 Quarterly CMS Summary & Data Assessment Report	3Q2021	10/29/2021
4Q2021 Quarterly CMS Summary & Data Assessment Report	4Q2021	1/31/2022
